

SLITTER REWINDERS
SEMI RIGID FILM

Slitter Rewinders

Semi Rigid Film Slitter

Slitter rewinder for big rolls that allows working with a vast variety of flexible and semi rigid film such as PET poly layer and mono layer.

PROCESS

- Central unwinder with brake.
- Edge guiding system.
- Automatic tension control system.
- Shear longitudinal slitting system.
- Central air shaft rewinding system.
- Rider roll.
- Manual ejection of finished rolls.
- Control panel with PLC integrated to the machine.

TECHNICAL SPECIFICATIONS

- Unwinder maximum diameter: 1,000mm(39").
- Unwinder core ID diameter: 76mm(3").
- Unwinder maximum width: 700mm(28").
- Rewinder maximum diameter: 600mm (24").
- Rewinder shaft diameter: 76mm (3").
- Speed: 350m/min (1,150ft/min).
- Unwinder maximum weight: 770kg (1,700lb).
- Rewinder maximum weight: 220kg (485lb).
- Minimum thickness: 0.010".
- Maximum thickness: 0.040".

OPTIONALS

- Other diameter air shafts (6").
- Differential shaft for rewinding.

SERVICES

- After-sales service.
- Technical support.
- Spare parts sales.
